

Feature:

1. Whole machine is welded with seamless steel structure,the stability is excellent, not easy to be deformed.
2. The Spindle equipment is the first brand of the world, 1.5KW/2.2KW China domestic made water cooling spindle.
3. The machine adopts gantry movement,it can process any kinds of materials freely.
4. Three axes adopt imported ball screw and circle orbit,stable working,high precision and long life time.
5. X ,Z axes are dustproof.It makes sure the steady working performance of the machine for long-term using.
6. Well compatibility:CAD/CAM designing software e.g. Type3/Artcam/Castmate/Wentai etc.
7. Has the function of forecasting process time.
8. High precision,the curving and linear speeds are consistent.Adopting excellent parts makes the fault rate to be the lowest one.
