

Features:

- 1.Three axes of PC-1325ATCL-B adopts imported high precision ball screw, This model machine satisfied customer who need higher accuracy and complex processing requirement.
2. Italy air cooling auto tool changer HSD spindle 9.0KW and YASKAWA servo system.
- 3.We use bakelite material for our cacumm table,it is very strong to avoid the distortion.
- 4.Syntec control system to avoid the mistake of the software.it can protect the table and the machine.
5. tool sensor,it can detect the tool checking spot precisely and input tool length data automatically,at the meawhile it can solve the tool length compensation quickly.
6. It is more convenient to the wood working factory to make different designs.

Technical Parameter:

Model	PC-1325ATCL-B
Table size	1350mm*3100mm
Working area	1300mm*2500mm*200mm
Max working speed	35m/min
Vacuum performance	230L/h
The number of knife	8pcs/6pcs(option)

Command	HPGL. G code
Repeatability	0.01mm
Resolution	0.005mm
Spindle speed	24000r/m
Transmission	Three axes Taiwan ball screw
Spindle power	9kw
Spindle cooling style	Italy HSD Air cooling
Drive Motors	Japan YASKAWA Servo Motors and Drivers
Working Voltage	AC380V/50/60Hz,3PH
Machine weight	2500kg

Applicable industry:

Furniture industry, solid wood furniture, solid wood doors, decorative materials, cabinet doors, computer tables, panel furniture, office furniture, wood Speaker system, kitchen utensils, and other wooden furniture processing.

Applicable material:

Wood,aluminum board,plastic,density board,wave board,PVC,acrylic,crystal,light marble and other nonmetal materials and light metal materials.
